INT/ATSAIC Barton	0159
DIR/SATS Tomlinson	0205
PA/ASAIC Carl Meyer	0207

needed enough to fill 200 ziplock bags. One of the subjects left a name of Terry Tuttle (known alias of **Terry Nichols**) and a phone number that was one digit off the telephone number at the residence of **James Nichols**.

Jennifer McVeigh returned to Buffalo, NY tonight, and has been convinced by her father to talk to the FBI. She is being interviewed at this time.

Paulsen was interviewed on this date for 3 hours. He reaffirmed his statements from yesterday. When shown the toll records showing that **McVeigh** called him over 30 times, Paulsen was visibly shaken and admitted to speaking with McVeigh on a more frequent basis than he reported earlier. When questioned about a long conversation dated 12/18/94, on the toll records, Paulsen advised that **McVeigh** was arranging a meeting with him to obtain dynamite from him. He advised that **McVeigh** wanted to meet him in a Denny's restaurant in Chicago, IL. Paulsen advised that he did not actually have the dynamite, and that he did not make the meeting. Paulsen agreed to be polygraphed.

An MCI operator accidentally retrieved **James Nichols'** phone records and noted that numerous calls were made to a John Broker with a 605 area code (South Dakota).

It was initially reported that the two calls made by **Timothy McVeigh** from jail were to Prairie, OK. Those calls were actually made to the residence of **James Nichols**.

A witness to the explosion named Grossman claimed to have seen a pale yellow Mercury car with a Ryder truck behind it pulling up to the Federal Building. Mr. Grossman further claimed to have seen a woman on the corner waving to the truck. ATSAIC McNally noted that this fact is significant due to the fact that the security video shows the Ryder truck pulling up to the Federal Building and then pausing (7-10 seconds) before resuming into a slot in front of the building. It is speculated that the woman was signaling the truck when a slot became available.

A catering truck driver who was traveling east just prior to the explosion noticed the Ryder truck in front of the Federal Building and saw two men leaving the vicinity of the truck and crossing the street heading for a brown pickup truck. The catering truck driver positively ID **McVeigh**. When questioned about his accuracy in detail, the driver admitted that he was gay and that he was "checking out" **McVeigh**.

2034 ATSAIC McNally advised that Paulsen failed his polygraph. He will be polygraphed again on 04-25-95.

that Paulsen provided McVeigh with the high explosives required to boost the ANFO to a detonation velocity. However, this is not conclusive. Did Paulsen provide McVeigh with further information on making ANFO even more efficient? By adding aluminum powder or glass beads to the ANFO mixture, this would generate a greater heat within the explosive mixture, producing a better consumption and yield with less residue remaining after the blast.

The initiation device is still unknown at this time. However, based on their military training, the simplest and most reliable initiation system would be TIME FUSE. Security video tapes from the area show the truck detonation 3 minutes and 6 seconds after the suspects exited the truck. A radio controlled (R/C) activation device is possible, if the suspects constructed or purchased such a system. One possible lead could be directed at "Ballisticorp" which stated that they sold three blowguns to the suspect, which normally cost \$20.00 each, however, the COD bill was \$600.00. The company may also sell R/C equipment. (GLOD)

- 1928 ATSAIC McNally reported that at this time, a fax was received from Topeka, KS stating that a Marsha Morgan an employee of Hypermart located in Topeka, KS had identified McVeigh as having bought a full flatbed truck load of fertilizer (NFI).

Hotel guests of the Dreamland Hotel who had a room next to McVeigh's room have identified McVeigh as an occupant at the Dreamland Hotel. ATSAIC McNally advised these guests also identified a flatbed truck located in the hotel parking lot. McNally's phone call was terminated, however, it is believed that the Ryder truck was also identified by these guests as also having been parked in the Dreamland Hotel parking lot. Attempts are being made to recontact McNally to confirm concerning the Ryder Truck. (HERRON)

- 1935 SA AU, Lexington, KY advised he had been contacted by Anna LNU, telephone 606-663-5214, who claimed that about one year ago, she dated a person who resembled the composite sketch of John Doe #2. Anna LNU stated that she knows this person Dennis Motowiak (NRID), 5'07", dark complected, black hair, stocky build, early to mid 20's. Anna LNU claimed that Motowiak is originally from North Carolina and had to return there due to his status as a parolee. She stated he has military experience and is part American Indian. Anna LNU provided that Motowiak has a cousin, Avery Crabtree (NRID), and uncle, Chester Crabtree (NRID), 2690 Paint Creek Rd, Stanton, KY, telephone 606-663-9308, who may be able to provide a current address for subject Motowiak.

- 2010 The individuals in the room next to McVeigh's at the Dreamland Hotel reported seeing the Ryder rental truck, as well as, a
